GREENTECH WEEK

Target audience & goals

Everyone who creates a new sustainable value for the urban space meets in Tallinn

- Green technology investors, innovators, entrepreneurs;
- City delegations and the public sector; Universities and research institutions;
- City people and green technology enthusiasts from Estonia and abroad

Goals for the Greentech Week

- Develop cooperation between cities and green technology companies;
- To introduce Tallinn as a progressive and development-friendly test centre
- To offer city people and green technology enthusiasts an engaging program and the opportunity to experience top-level technological solutions.

At least 60 exhibitors / 2000 visitors / 30 city delegations / 400 Cleantech Forum Europe participants

GREENTECH EXPO

For all companies and cities implementing green technology and smart city solutions.

- 60+ exhibitors from all over the world
- Up to 500 investors, innovators and entrepreneurs
- More than 30 capital and metropole delegations
- Greentech Showroom: Present your ideas to wider audience

Main topic: Mobility

Diversification of mobility and new environmentally friendly transport solutions.

SMART CITIES

Convention

An event where city delegations and smart green technology will meet!

- CITYmeet EXPO - new contacts with over 30 city delegates;
- The competence center for sustainable governance
- Europe's best green technology and start-up community
- 2 days full of workshops, presentations and study visits

An aerial photograph of Tallinn, Estonia, showing the historic Toompea Castle and Old Town. The castle is a large, light-colored building with a prominent tower and a red-tiled roof. It is surrounded by lush green trees and a small pond. In the background, the city skyline is visible under a clear blue sky.
